ALIGNMENT WITH THE DELTA PLAN

ALIGNMENT

GOAL

Protect, Restore, and Enhance the Delta Ecosystem

CORE STRATEGY

ER CS 2

Delta Ecosystem

Ch 4 - ER policies and recommendations: Restore habitat

PERFORMANCE MEASURE(S)

ER P2-01

Restore Habitats at Appropriate Elevations

100 percent of proposed actions that include habitat restoration in the Sacramento-San Joaquin Delta meet one of the following standards: (1) are consistent with the text of Appendix 3 (see Appendix B of the Delta Plan), based on the Conservation Strategy for Restoration of the Sacramento-San Joaquin Delta Ecological Management Zone and the Sacramento and San Joaquin Valley Regions; or (2) are not consistent with the elevation map (see Figure 4-6 of the Delta Plan), but the deviation is supported by a rationale based on best available science.

ER R3-01

Complete and Implement Delta Conservancy Strategic Plan

The Sacramento-San Joaquin Delta Conservancy develops and adopts criteria for prioritization and integration of large-scale ecosystem restoration in the Sacramento-San Joaquin Delta and Suisun Marsh, with sustainability and use of best available science as foundational principles.
