CA WaterFix Peer Review

Provide comments on the use of the best available scientific and commercial information as it pertains to aquatic ESA and CESA listed species (aquatic species) in the development of the NMFS/FWS Biological Opinion and the CDFW 2081(b) permit. The role of the Independent Science Panel is to provide the investigative team with a balanced, considered and constructive review of three documents: 1)the draft BO analytical approach, 2)specific Biological Assessment analyses (identified in the panel charge), and 3) the approach to analyzing the effects to longfin smelt.
