Consumptive Use Study

Provide funding to the State Water Board for scientific analysis and review on crop water consumptive use in the Sacramento-San Joaquin River Delta. The Governor's Executive Order B-29-15 and prior drought emergency orders prompted this study to calibrate and compare a variety of methods for determining consumptive use and to resolve long-standing disagreements regarding consumptive use of water within the unique setting of the Delta.

ALIGNMENT WITH THE DELTA PLAN

GOAL

More Reliable Water Supply

CORE STRATEGY

WR CS 4

Water Supply Reliability

Ch 3 - WR policies and recommendations: Improve water management information

PERFORMANCE MEASURE(S)

WR R16-01

Supplemental Water Use Reporting

The State Water Resources Control Board has modified its supplemental water diversion and use or progress reports to require additional information on water efficiency, water supply projects, and net (consumptive) use.
