Technical Expertise

The Delta Stewardship Council supports DWR by providing services and products that will integrate priority science actions intended to inform key implementation steps into multipurpose Delta flood infrastructure and ecosystem improvements. This agreement is intended to promote cross agency integration support and development of scientific data and information to improve scientific and technical knowledge that can inform program- and project-specific decisions in the Delta and its tributary watersheds.

ALIGNMENT WITH THE DELTA PLAN

GOAL

Reduce Risk to People, Property, and State Interests

CORE STRATEGY

DP CS 2

Delta as a Place

Ch 5 - DP policies and recommendations: Plan to protect the Delta's lands and communities

PERFORMANCE MEASURE(S)

DP P2-01

Respect Local Land Use When Siting Water or Flood Facilities or Restoring Habitats

Water management facilities, ecosystem restoration, and flood management infrastructure are sited to avoid or reduce conflicts with existing or planned uses when feasible, considering comments from local agencies and the Delta Protection Commission. Plans for ecosystem restoration consider sites on existing public lands, when feasible and consistent with a project's purpose, before privately owned sites are purchased.

DP R4-01

Buy Rights of Way from Willing Sellers when Feasible

Agencies acquiring land for water management facilities, ecosystem restoration, and flood management infrastructure purchase from willing sellers, when feasible, including consideration of whether lands suitable for proposed projects are available at fair prices.

CORE STRATEGY

RR CS 2

Reduce Risk in the Delta

Ch 7 - RR policies and recommendations: Finance and implement flood management activities

PERFORMANCE MEASURE(S)

RR R3-02

Fund Actions to Protect Infrastructure from Flooding and Other Natural Disasters

The California Public Utility Commission directs all regulated public utilities in the California Public Utility Commission’s jurisdiction to immediately take steps to protect the public utilities’ facilities in the Sacramento-San Joaquin Delta from the consequences of catastrophic failure of levees in the Sacramento-San Joaquin Delta.
