**McCormack-Williamson Tract (MWT) and Grizzly Slough (GS) Restoration**

The North Delta Flood Control and Ecosystem Restoration Project consists of flood control and habitat improvements where the Mokelumne River, Cosumnes River, Dry Creek, and Morrison Creek converge. Flood flows and high water conditions in this area threaten levees, bridges, and roadways. The project will reduce flooding and provide contiguous aquatic and floodplain habitat along the downstream portion of the Cosumnes River Preserve by modifying levees on McCormack-Williamson Tract and at Grizzly Slough.

## ALIGNMENT WITH THE DELTA PLAN

### GOAL

Protect, Restore, and Enhance the Delta Ecosystem

### CORE STRATEGY

#### ER CS 2

Delta Ecosystem

Ch 4 - ER policies and recommendations: Restore habitat

### *PERFORMANCE MEASURE(S)*

#### ER P2-01

#### **Restore Habitats at Appropriate Elevations**

100 percent of proposed actions that include habitat restoration in the Sacramento-San Joaquin Delta meet one of the following standards: (1) are consistent with the text of Appendix 3 (see Appendix B of the Delta Plan), based on the Conservation Strategy for Restoration of the Sacramento-San Joaquin Delta Ecological Management Zone and the Sacramento and San Joaquin Valley Regions; or (2) are not consistent with the elevation map (see Figure 4-6 of the Delta Plan), but the deviation is supported by a rationale based on best available science.

#### ER R3-01

#### **Complete and Implement Delta Conservancy Strategic Plan**

The Sacramento-San Joaquin Delta Conservancy develops and adopts criteria for prioritization and integration of large-scale ecosystem restoration in the Sacramento-San Joaquin Delta and Suisun Marsh, with sustainability and use of best available science as foundational principles.

#### ER R3-02

#### **Complete and Implement Delta Conservancy Strategic Plan**

The Sacramento-San Joaquin Delta Conservancy develops and adopts processes for ownership and long-term operations and management of land in the Sacramento-San Joaquin Delta and Suisun Marsh acquired for conservation or restoration.

#### ER R3-03

#### **Complete and Implement Delta Conservancy Strategic Plan**

The Sacramento-San Joaquin Delta Conservancy develops and adopts a formal mutual agreement with the California Department of Water Resources, California Department of Fish and Wildlife, federal interests, and other State and local agencies on implementation of ecosystem restoration in the Sacramento-San Joaquin Delta and Suisun Marsh.
