San Joaquin Salinity Management

The purpose of this project is to manage agricultural drainage for the Grassland Drainage Area in order to eliminate selenium discharges to Mud Slough and salt discharges to the Lower San Joaquin River.

ALIGNMENT WITH THE DELTA PLAN

GOAL

Improve Water Quality to Protect Human Health and the Environment

CORE STRATEGY

WR CS 1

Water Supply Reliability

Ch 3 - WR policies and recommendations: Increase water conservation and expand local and regional supplies

PERFORMANCE MEASURE(S)

WR R2-01

Require SWP Contractors to Implement Water Efficiency and Water Management Laws

California Department of Water Resources adopts and implements a requirement for State Water Project contracts and transfer agreements that requires implementation of State water efficiency, water management laws, goals, and regulations, including compliance with Water Code section 85021.

WR R7-01

Revise State Grant and Loan Priorities

State grant and loan ranking criteria have been revised by December 31, 2013.
